

OREGON PROFESSIONAL LOGGER PROGRAM (OPL)

Certificate of Accreditation

Morrell Logging, LLC.

**Has fulfilled all continuing education requirements, and
ascribes to standards of professional conduct,
to remain OPL accredited through the following date:**

December 31, 2013

The OPL program is a voluntary professional standard that accredits logging operator companies for their continuing education in Oregon sustainable forestry, safety, business, and forest practices

OPL accreditation recognized by American Loggers Council, as fulfilling Master Logger Certification (MLC)

OPL accreditation endorsed by Sustainable Forestry Initiative (SFI), State Implementation Committee of Oregon

OPL accreditation complies with American Tree Farm System's (ATFS), Standards of Sustainability for Forest Certification

The timber, logs and wood fiber harvested by OPL companies, and supplied to SFI participating manufacturers, qualify for green building certification, such as: National Association of Home Builders, 'NAHB National Green Building Program'; and the Green Building Initiative's, 'Green Globes'™ system. "Green" building materials are manufactured from renewable resources, such as wood, and harvested from sustainably managed forests.

Program administered by:

Associated Oregon Loggers, Inc
PO BOX 12339; Salem, OR 97309-0339
(503) 364-1330; aol@oregonloggers.org
